

Hampanna Gouda

hampannagouda18@gmail.com | 8073276645 | Bengaluru, India
HackerRank | LinkedIn | LeetCode | GitHub | CodeChef

Profile

Eager and dedicated Computer Science Engineering student with strong proficiency in Java, Python, and web development. Skilled in machine learning and problem-solving, with a solid foundation in Data Structures and Algorithms. Passionate about building scalable applications and leveraging technology to drive innovation and efficiency. Passionate about applying academic knowledge in real world scenarios and continuously learning new technologies

Skills

- Programming Languages: Java, C, Python.
- Database Management: MongoDB(Basic), MySql.
- Data Structures and Algorithms.
- Object-Oriented Programming (OOP).
- Machine Learning, Deep Learning (CNN, LSTM).
- AWS (Generative AI Foundations).
- Data Analysis Visualization: Pandas, Matplotlib, Seaborn, Tableau.
- Tools: Github, VS Code.
- Problem-Solving Skills.

Education

- | | |
|--|----------------------|
| Dayananda Sagar University , B.Tech in Computer Science | June 2022 – Aug 2026 |
| • CGPA: 8.44/10.0 | |
| JMJ PU College-Shiggaon , Pre University Board | April 2022 |
| • Percentage: 90 | |
| Govt High School -Hedagimdra , Secondary Education | March 2019 |
| • Percentage: 80 | |

Projects

- | | |
|--|--|
| AI Stock Prediction System (LSTM) | Click here to view Project |
| <ul style="list-style-type: none">• Developed and deployed an LSTM-based stock price prediction model with real-time data.• Implemented feature engineering using technical indicators improving model accuracy by ~18%.• Built a Streamlit dashboard for live stock prediction and visualization. | |
| Sorting Algorithm Analysis (Java) | Click here to view Project |
| <ul style="list-style-type: none">• Implemented Bubble, Insertion, Selection, Merge, and Quick Sort.• Designed a unified benchmarking module to compare algorithm performance on dynamic inputs.• Enhanced understanding of time complexity and optimization strategies. | |
| E-Commerce Web Application (MERN Stack) | Click here to view Project |
| <ul style="list-style-type: none">• Built a Flipkart-like full-stack platform with product listings, cart, and user authentication.• Implemented CRUD operations, JWT-based login, and responsive UI.• Achieved 30% faster page load via optimized React state management. | |

Certifications

- Linux Shell Scripting Solutions – Infosys
- Career Essentials in Software Development by - Microsoft and LinkedIn
- Oracle Database@AWS Architect Professional – Oracle
